Organisation Overview

- SOS Children’s Village
- SOS Ennerdale was the first long-term alternative care programme for children. Established in Johannesburg in 1984, the programme is now well integrated into the local community. 300 children and their families are supported through community outreach work
- SOS Children's Villages is dedicated to ensuring that every child grows up in a loving family environment, with the care, relationships, and support they need to thrive
- SOS Children’s Village primarily targets children without parental care of those at risk of losing their care

Website Goals and Objectives

- Specific website goals

The goals for the website is to increase the organization's audience and awareness, so that more people can be aware of the organization and potentially attract investors to grow the organization

And to give the audience more insight on what the organization is about

- Key performance indicators
    1. Ensuring the best interests of the children are considered
    2. Acting in the best interests of the child

Current Website Analysis

- Strengths
  1. Clear mission and purpose
  2. Good contextual story telling
- Weaknesses (with areas for improvements)
  1. Limited local specificity (Ennerdale page)- Develop Ennerdale-specific storytelling (profiles of children, families, and staff)
  2. Weak visual engagement- Ensure visuals are recent and regularly updated

Proposed Website Features and Functionality

1. **Homepage**

Key Features:

- Clear headline
- Brief overview of services and impact
- Quick stats (e.g., children supported, families assisted)
- Prominent call to action buttons:
    - Donate
    - Volunteer
    - Sponsor a child

Functionality:

- Fast loading
- Easy navigation

2. **About us page**

Key Features:

- Background of SOS Children's Villages and Ennerdale branch
- Mission, vision, and values
- History of the Ennerdale village

Functionality**:**

- Timeline history section
- Testimonials

3. **Products/Services Page**

Key Features:

- Breakdown of core programmes:
    - Family strengthening
    - Alternative care
    - Youth development

- Real-life examples or case studies

Functionality:

- Visual icons or infographics

4. **Contact us page**

Key Features:

- Physical address (Ennerdale location)
- Phone number and email
- Office hours

Functionality:

- Contact form
- Click-to-call and click-to-email options
- Maps for directions

Design and User Experience

The proposed design should reflect trust, hope, and community, while maintaining an NGO identity. The aesthetic should balance emotional storytelling with clarity and usability, ensuring both donors and community members feel engaged.

Colour Scheme: Blue, White, Orange, Green, Yellow

Typography:

Headings: bold, modern fonts

Body text: Aptos

- H1: Large, bold (page titles)
- H2: Section headings
- H3: Subsections
- Body text: Simple, readable, medium size
- CTA buttons: Bold

  Layout and Design
- Clean and minimalist layout
- Hero banner with image/video
- Consistent spacing and alignment

Technical Requirements

Domain name: sosennerdale.org.za

Hosting: HTTPS for security, Fast uploading speeds

Programming languages: HTML and CSS

Frameworks:

Timeline and milestones

Week	Phase	
1	Planning	
2	Requirements	
3	Wireframing	
4	Design	
5	Development	
6	Development	
7	Testing	
8	Finalisation	

Budget

Development- R20 000-R40 000

Hosting- R1000-R4000

Maintenance- R7000-R20 000
